

## Indoor Air Quality (IAQ) Sensor (ENV-TVOC)

### General Description

This sensor measures the volatile organic compounds in the air surrounding the sensor. Those measurements enable you to monitor the air quality inside your buildings, data centers, server rooms, healthcare facilities and other critical facilities.

### Key Features

- plugs into the base unit (BASE-WIRED)
- powered by the base unit (BASE-WIRED)
- compact plug & play sensor
- designed for indoor use
- steel enclosure, industrial grade
- 0u rack, DIN rail or wall mountable sensor
- measure TVOC in ppb equivalents
- TVOC range of 125 to 600 ppb (parts per billion)

### Technical Specifications

Power source	SensorGateway (BASE-WIRED)
Power usage	180 mW
TVOC levels	125 to 600 ppb

### Environmental and Physical Specification

Operating temperature range	0°C to +50°C (32°F to +122°F)
Humidity (operating and storage)	< 90% rH (non-condensating).
Dimensions	71.5 mm (2.8") x 68 mm (2.7") x 23 mm (0.9")
Weight	0.14 kg (0.31 lbs.)
