

Modbus RTU (Slave) Add-On (ADDON-RTU)

This device is engineered for seamless integration with RS-485 industrial control systems, featuring surge protection on the data line and 3000 VDC isolation protection. It functions as a Modbus RTU Slave, offering reliability and efficiency. With one RS485 bus and a terminal block comprising one Device IN and one Device OUT, it ensures straightforward connectivity. Manufactured in Europe, it meets high-quality standards for robust performance.

Environmental Specifications:

Operating temperature range	-40°C to +85°C (-40°F to +185°F)
Humidity (operating and storage)	< 90% rH (non-condensating)

Physical Specifications:

Sensor enclosure	Steel enclosure, industrial grade
Mounting option	0U rack, DIN rail, magnetic, or wall mountable sensor
Dimensions	92mm (3.62") x 50.7mm (2") x 22.5mm (0.96")
Weight	66.0g (0.146 lb)
