

Motion Sensor (SEC-MOTION)

Industrial grade motion sensor featuring digital signal analysis ensures consistent detection across its coverage pattern. With digital temperature compensation, it enhances catch performance at critical temperature levels, providing accurate detection of human IR energy over a wide temperature range.

Certifications:

ULC , C-tick, INCERT, CCC, CE, UL

Technical Specifications:

Powered by and communicates with	Base Unit (BASE-XX) (required)
Connectivity	RJ45 cable transmitting data & power from Base Unit to Sensor
Cable specification	Base Unit (RJ45 CAT 6/7 recommended Up to 100m (330ft) subject to cable quality & interference-WIRED)
Sensor power usage	456mW

Environmental Specifications:

Operating temperature range	0°C - 37°C (32°F - 100°F)
Humidity (operating and storage)	< 95% rH (non-condensating)

Physical Specifications:

Sensor enclosure	Steel enclosure, industrial grade
Mounting option	0U rack, DIN rail, magnetic or wall mountable sensor
Dimensions	74.53mm (2.93") x 68.44mm (2.69") x 21.62mm (0.85")
Weight	95.5g (0.21lb)
